

Part # 10-2374

Weldas DEERSOsoft® gloves are made from premium North American deerskin giving these gloves excellent heat resistance without sacrificing control or comfort to the welder. These thick grain leather deerskin gloves are also versatile for MIG/TIG applications by being capable of resisting sparks & spatter while still having excellent fingertip control. These gloves are built for comfort, durability & longevity.

Applications

Light, Medium Duty Welding

Testing

Meets
ANSI/AWS Z49.1

Features & Benefits

- Length: 3" Cowhide Cuff
- Material: Premium Pearl Grain Deerskin, Grade A Split Cowhide Cuff, Kevlar® stitching
